## SUPERKIDS

Today, we met HOT ROD, our new Superkid. We listened to his song about his dream to become a race car driver and drive a car called "The Fast Cat." This week we will read aloud in small groups the story of "The Flat Cat." We'll continue to blend sounds for letters we know in order to read words. The children are becoming wonderful spellers. They love our classroom Spelling Bees!

\*Please encourage your child to review any of the letters we have learned so far. We have worked with beginning, middle and ending sounds. The children are all doing great and trying their best!

**OUR WORD LIST TEST IS ON THURSDAY THE 18<sup>th</sup>.**

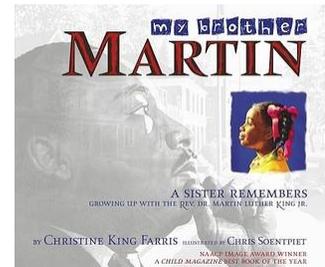

The next few days, we'll be working on our new Bulletin Board "Winter Resolutions." It will be done by the end of the week if you would like to stop by and take a peak.

## MATH

Chapter 6 is going very well. The children are enjoying doing tally charts and pictographs. This week, we are learning about symmetry, halves and fourths. The chapter test will be on January the 17<sup>th</sup>. For extra practice you can go on-line at [www.sadlier-oxford.com](http://www.sadlier-oxford.com)

## SOCIAL STUDIES

Learning about Martin Luther King will be our new History Unit. We'll read books about his life and his wonderful dream. We'll talk about kindness and respect for others as well. We'll learn about Martin Luther King's childhood while reading the book his sister wrote: "My Brother Martin."

**SCIENCE:** Today we ended our "Making and Recording Observations" Unit. It was a long unit with many experiments but we all enjoyed it. Today we even tried to find patterns and symmetries with Mr. Bone and different science tools. The booklet should be coming home by the end of the week.

**Monday, January 15<sup>th</sup>: NO SCHOOL IN HONOR OF MARTIN LUTHER KING**

**HAVE A FABULOUS WEEK!**
