

Mrs. Siegelman's Gazette

March 6, 2018

SUPERKIDS:

The Superkids are keeping us busy! As we are writing more and more, we are learning to use correct spacing and punctuation in sentences. Tomorrow, we will start learning about multiple-meaning words such as stand, bat, duck etc... **The Word List Test is on March 16th.** Please keep practicing the Word List everyday with your child. As you can imagine reading is keeping us occupied and the children are really getting into it!

MATH:

Chapter 9 is going well. With lots of games and hands-on activities, learning about money is definitely fun. Tomorrow, we will learn about Fair Trades. We will spend lots of time in circle to practice it. The best part of this chapter is the shopping. The kids love it! For extra practice, you can go on-line at www.sadlier-oxford.com. **THE CHAPTER TEST IS ON MARCH 20th.**

SCIENCE :

This week we concluded the "Making Measurements Unit" in the lab. The last investigation was about comparing weight. We used pan balances, different size bears, falcon cubes and paper clips. The students enjoyed doing the hands-on experiments.

GEOGRAPHY:

Thursday, we'll start our last geography unit. We'll get ready to start our trip around the world. During the next two months, we will be traveling and visiting all the continents. We'll pretend to get on an airplane, we'll learn about the different cultures, traditions and we'll even taste their food. It will be lots of fun! For the next two weeks, we will have a mini review and talk about continents, maps, and directions.

IMPORTANT DATES:

~Friday, March 9th at 8:45am is **DONUTS FOR DADS**. We are all getting very excited for this great event and are working on a few surprises for the Dads. Please come hungry! The event will end around 9:30am. **NO SNACK NEEDED.**

~SPRING BREAK: April 2nd – April 6th

Have a wonderful day!
