

Mrs. Siegelman's Gazette

May 15, 2018

SCIENCE:

We cannot wait to watch our butterflies emerging from their chrysalides. We have been waiting patiently but we are getting a bit antsy. Observing them has been wonderful. Right now, we are working on a **Butterfly Life Cycle Project** in the classroom and are enjoying it. We are really getting ready for first grade with this project.

MATH: Chapter 12 is almost over! With the help of songs and games, we are definitely enjoying learning how to count by 2s, 5s and 10s. Learning about odd and even numbers kept us busy as well. On Thursday, we will have our Chapter Test and we will be done with our math program!

SUPERKIDS:

Hard to believe we are almost done with our last unit. Just like the Superkids, we will be going down Memory Lane and will write about our Kindergarten memories.

Our LAST Word List Test is tomorrow, Wednesday May 16th.

SOCIAL STUDIES:

Our trip around the world took us to Australia last week! Thank you to Adrian's Mom who came today to talk about Australia where she lived for many years. Tomorrow, we will be flying to Europe. We will talk about the different languages spoken throughout the continent. We will stop in famous cities like Paris, London, Barcelona and more. Mrs. Thigpen will come and talk to us about Spain and Mrs. Wohiren, Maya's Mom will come next week to talk about Germany. We will surely make a stop in Switzerland, my native country.

NOTES:

May 25th: Last day of school/ **The children will be dismissed at 1:00PM**

HAVE A GOOD END OF THE WEEK!
